IT HARDWARE SECURITY SOLUTIONS FOR INDUSTRY AND LOGISTICS

compulocks.com

ABOUT US

Compulocks is the leading design manufacturer of IT hardware security and tablet display solutions for businesses and across industries.

With an in-house R&D team and an understanding of every work environment’s needs, we provide our clients with high end customer specific products that elevate their work, operations, and communications.

Quality Assurance
Durable materials for long-term usage

Security Experts
Creating security solutions for over 10 years

International Service
Operations in North America and Europe serving the world

Fortune 500
Chosen by companies from start-ups to Fortune 500

At Compulocks we understand that the industrial working environment can be very demanding, and requires special attention when designing suitable products. Compulocks IT hardware security and display solutions for industry and logistics are robust and durable, to fit tough operating conditions while enabling comfortable and easy use.

Our solutions come as a complete tablet display and security bundle or may be customized by our product experts to suit our customers’ precise requirements.

WE'RE GOING ECO

At Compulocks, we are committed to sustainability and recognize our responsibility to minimize our environmental impact. Our goal is to create innovative and secure solutions for our customers while ensuring our operations are conducted in a sustainable and ethical manner. This policy outlines our commitment to sustainability across all aspects of our business.

Our Commitment

Compulocks is dedicated to:

Sustainable Product Design

Ethical Sourcing

Waste Management

Energy Efficiency

Environment and Regulation

We prioritize the design and development of products that are durable, repairable, and recyclable.

Compulocks Delivers Rugged Custom Solution for MDA Emergency Vehicles

THE CUSTOMER

Magen David Adom (abbreviated as MDA) is Israel's National Emergency Service, providing emergency medical relief via its ambulances and medical centers.

THE CHALLENGE

MDA required a solution that would allow them to both dock and charge tablets in their emergency care vehicles.

There were several criteria that needed to be met: MDA needed their solution to be shock-resistant, as well as being easily securable as the MDA emergency vehicles often drive at fast speeds. Additionally, MDA's operation in fast-paced urgent conditions means tablets need to be quickly released.

THE SOLUTION

Compulocks designed a hybrid solution made of high-grade Aluminium Metal and Rubber Silicone Body, custom-designed to the exact measurements of the tablet. This allowed for a durable, solid and timeproof tablet suitable for emergency situations.

The case has an ergonomically designed Hand Grip with an adjustable strap and 360-degree tablet rotation that offer easy grip and comfortable hold. It easily accommodates both portrait and landscape viewing modes. Complete with a "fast release" clip and magnetic charging cable, both the need for an easily insertable and quickly charging tablet were solved. The clip allows for the tablet to be easily pressed down and released from its holder, while an integrated magnetic charging cable allowed for similarly quick release, without having to worry about tricky detachable wires.
