

ergotron®

Mosaic™ Medical Cart

- **Standardise with confidence:** Consolidate healthcare operations with a single, standardised platform that customises and adapts to meet the evolving needs of any hospital application.
- **Easy to maintain:** Designed with high-quality materials to withstand demanding healthcare environments and modularity that enables quick serviceability.
- **Caregiver satisfaction:** Enable caregivers to provide better patient care with a cart that prioritises ergonomic comfort, ease of use and customisation to any workflow.

EMPOWER CARE, SIMPLIFY MANAGEMENT

Mosaic

More than a mobile workstation, Mosaic is a customisable platform designed to help healthcare professionals thrive and deliver exceptional care. Its flexible design meets the ergonomic needs of caregivers, enhancing comfort and safety for greater efficiency and job satisfaction. Mosaic also empowers IT teams with a tech-forward approach that simplifies workstation management and adapts to evolving healthcare needs. By unifying and supporting every team, Mosaic streamlines workflows and enables professionals to focus on what matters most—improving patient care.

BENEFITS COMPARISON

Benefits for Caregivers

- **Effortless Maneuverability:** Larger casters, handles or grip points on all sides and a compact footprint enable caregivers to easily maneuver the cart through any environment, ensuring smooth mobility in any space.
- **Ergonomic Excellence:** With 40 years of ergonomic expertise and Constant Force technology, caregivers can effortlessly adjust the cart's height as well as fine-tune the monitor and keyboard position for optimal comfort during long shifts.
- **Customisable Workflow:** Tailor the cart to fit any workflow with modular configurations, including multiple drawer tiers, accessory zones and a wide selection of add-ons, promoting a more organised and efficient workspace.

Benefits for IT

- **Future-Ready:** Prepared for continuous improvement, the platform is built and designed to evolve by accommodating upgrades and innovations, allowing for redeployment of assets and cutting down on unnecessary replacement costs.
- **Quality:** Ergotron's industry-leading quality is evident in its ISO 9001 certification, with lift engines built to last through 100,000 cycles and a 5-year warranty that lowers the total cost of ownership.

Non-Powered
